

Vraj Patel

FULL STACK DEVELOPER

✉ patelvraju07@gmail.com 📞 +91 98799 71451 📍 Ahmedabad, Gujarat, India [in LinkedIn](#) [🐙 GitHub](#)

PROFILE

Full Stack Developer with 2+ years of experience building production web, mobile, and TV applications end to end with Next.js, Node.js, and React Native. Ships internal operations tooling and client platforms on Postgres and MongoDB covering authentication, RBAC, third-party integrations, background jobs, and AI-assisted features. Computer Engineering graduate with a strong focus on backend engineering, scalable architecture, and maintainable code.

EDUCATION

B.E. in Computer Engineering

LJ Institute of Engineering and Technology

2021 – 2025 | Ahmedabad, India

12th Science (GSEB)

H. B. Kapadiya School

2020 – 2021 | Ahmedabad, India

SKILLS

Languages: JavaScript | TypeScript | Python | SQL | PHP

Frameworks: React | Next.js | React Native | Node.js | Express.js | Tailwind CSS

Databases: PostgreSQL | MongoDB | Redis

Tools & Platforms: VS Code | Git & Github | Firebase | GetStream | Payload CMS

PROFESSIONAL EXPERIENCE

Jul 2025 – Present
Ahmedabad, India

Jr. Software Engineer

9series

- Build production web platforms end to end with Next.js and PostgreSQL, owning both front-end interfaces and server-side logic across multiple client domains.
- Implement authentication and authorization with role-based access control (RBAC) and Microsoft OAuth for multi-tenant internal tooling.
- Integrate third-party services like Slack, Jira, GitHub, Notion, Zoom, Teams, Outlook, and GetStream into core product workflows.
- Engineer Redis-backed background jobs and queues and ship AI-assisted features into production.
- Deliver client platforms across creator collaboration, construction, metals, and health-industry domains.

May 2024 – May
2025
Ahmedabad, India

Software Developer

Prime Apps

- Developed React Native applications for TV and mobile platforms for **SportsGrid**, handling screen development and API integration for the ten-foot living-room view.
- Built backend services with Node.js and Express.js as part of company assignments.
- Delivered **MyUnify**, a Learning Management System, as a full-stack developer using Next.js, React, Node.js, and MongoDB with Payload CMS.

Nov 2023 – May
2024
Ahmedabad, India

Software Intern

Prime Apps

- Built web fundamentals hands-on with HTML5, CSS3, JavaScript, and jQuery.
- Learned PHP, Laravel, and WordPress alongside SQL and relational data modeling.
- Applied the full stack across a series of training projects before moving to client work.

PROJECTS

Pivotal

Full Stack · 9series

An internal company portal managing end-to-end operations from employee handling to project management **used by 100+ users** across higher management, HR, finance, and project clients.

- Implemented Microsoft OAuth and role-based access control (RBAC) for management, HR, finance, and client roles.
- Integrated Slack, Jira, GitHub, Notion, Zoom, and Teams into project-management workflows.
- Added AI-generated meeting minutes with Redis-backed background jobs and queues.

Next.js · PostgreSQL · Redis · RBAC · Cloudflare R2

Kavra

Full Stack · 9series

A creator collaboration platform where companies create campaigns and assign them to creators, who produce reels and product shoots covering the full campaign lifecycle from briefing to delivery.

- Built campaign creation and creator assignment with deliverable tracking and budget management.
- Added AI-generated product image descriptions, banner creation, and inventory management.
- Integrated in-product chat via GetStream, secured with role-based access control.

Next.js · PostgreSQL · RBAC · GetStream · AI

MyUnify

Full Stack · Prime Apps

A learning management system built with Next.js, Node.js, and React on MongoDB with Payload CMS.

- Added an **online live-classes feature using BigBlueButton (BBB)**.
- Built responsive dashboards, authentication flows, and reusable components.
- Delivered course management and interactive student workflows.

Next.js · Node.js · React · MongoDB · Payload CMS · BBB

SportsGrid

React Native · Prime Apps

A sports TV and mobile application delivering live match scores and coverage across multiple sports for the ten-foot living-room view.

- Developed screens for live scores and multi-sport content across Android TV and mobile.
- Integrated APIs for real-time match data and resolved cross-platform bugs.

React Native · Android TV · API Integration

BuildChain

Full Stack · 9series

A construction-company business website built as a fully headless CMS platform, with all content managed through Payload CMS.

- Built a headless architecture with Payload CMS driving content and a fast Next.js front end.
- Delivered fully content-managed marketing pages editable without code.

Next.js · PostgreSQL · Payload CMS · Headless CMS

Ablefinder

Full Stack · 9series

A health-industry platform built on Next.js and PostgreSQL.

- Built admin dashboard UI panels for platform management.
- Integrated a GetStream-powered chat experience.

Next.js · PostgreSQL · GetStream

CERTIFICATES

CODE WARS Certificate of Participation · LDCE

Hackout'23 Certificate of Participation · DA-IICT
